Environment
Chrome Version 114.0.5735.133 (Official Build) (64-bit)

Description
During the test execution of https://alinageorgescu.atlassian.net/browse/SFOCS-38 the *Write a review* link is not redirecting user to add a review on the product page (Step 6)

Prerequisites:

- stable internet connection
- laptop or PC
- Chrome browser installed
- do not login before executing test

Steps to reproduce:

- Open Chrome browser and navigate to https://demo.opencart.com/
- Go to any product page

Expected result: The user is able to add a review by clicking on *Write a review* link in the product page.

Actual result: The user is not redirected to add a review by clicking on *Write a review* link in the product page.

Description

Description

During the test execution of https://alinageorgescu.atlassian.net/browse/SFOCS-36 I observed that the product comparison page is not displayed. (Step 3)

Prerequisites:

- stable internet connection
- laptop or PC
- Chrome browser installed
- do not login before executing test

Steps to reproduce:

- Open Chrome browser and navigate to https://demo.opencart.com/
- Go to any product page and click on the compare button (it is below the product price, next to favorite icon)
- Add another product and click on the link "product confirmation" present in the confirmation message

Expected result: the product comparison page is displayed where user is able to check products and see different specifications, features. The customer is given the option to add one of the compared products to the cart if they want to. Pressing "Continue" will bring the user back to the home page.

Actual result: a new product comparison page is displayed but the products are not displayed.
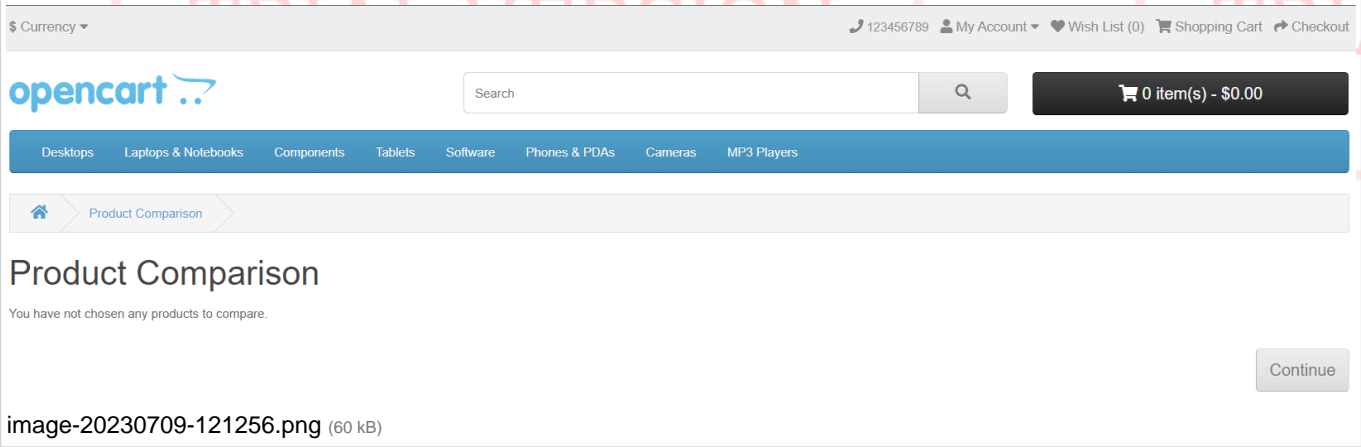

Checked attached photo.

Description

Description

During the test execution of https://alinageorgescu.atlassian.net/browse/SFOCS-27 I observed that the shopping cart button on feature products is not according to technical documentation (Step 2,3,4 and 5)

Prerequisites:

- stable internet connection
- laptop or PC
- Chrome browser installed
- do not login before executing test

Steps to reproduce:

- Open Chrome browser and navigate to https://demo.opencart.com/
- Navigate to the feature products
- Check the feature products layout

Expected result: the feature product layout is according to technical documentation.

Actual result: the feature product layout is NOT according to technical documentation, there should be a text placeholder containing "ADD TO CART" next to the shopping cart icon.

Checked attached photo.

Description

During the test execution of https://alinageorgescu.atlassian.net/browse/SFOCS-28 I observed that the link "Gift Certificates"/"Affiliate" should be "Gift Vouchers"/"Affiliates" in the "Extras" category from footer. (Step 2)

Prerequisites:

- stable internet connection
- laptop or PC
- Chrome browser installed
- do not login before executing test

Steps to reproduce:

- Open Chrome browser and navigate to https://demo.opencart.com/
- Navigate to the footer
- Check the naming of links in the "Extras" category

Expected result: the order of links present in the "Extras" category are in accordance with the technical documentation

- **Extras:** "Brands", "Gift Vouchers", "Affiliates", "Specials"

Actual result: there is no link called "Gift Vouchers"/"Affiliates" instead we have "Gift Certificates"/"Affiliate"

- **Extras:** "Brands", "Gift Certificates", "Affiliate", "Specials"

Also the page displayed is related to "Gift Certificates" instead of "Gift Vouchers".

Description

During the test execution of https://alinageorgescu.atlassian.net/browse/SFOCS-16 when searching for a product an internal server error page is displayed when executing the 3rd step.

Prerequisites:

- stable internet connection
- laptop or PC
- Chrome browser installed
- do not login before executing test

Steps to reproduce:

- Open Chrome browser and navigate to https://demo.opencart.com/
- Click on the search box present under the page header in the middle of the page
- In the search box enter any keyword using the keyboard

Expected result: The related products referring to "iphone" will be displayed or in case there is no iphone on the website a message will be displayed "There is no product iphone present in the shop, try searching for another item"

Actual result: a new page is displayed where we can see an Internal Server Error! (Check attachments)
